- **Wrote a book** which has the collection of Hindi poems and article published by Indore Publications.
- I have also received Appreciation Certificate from automated their manual process.
- I have also received Appreciation Certificate **from NCO(National cyber Olympiad)**

Project Handled

Project: 1

Project Name: ERP System
Domain: Industry
Duration: 1 year
Description: "This ERP system is designed to enhance the efficiency of Industry by streamlining operations, managing inventory, tracking production, and ensuring regulatory compliance. It automates key departments such as Admin, Purchase, sales, and Stock, while offering real-time analytics and reporting for improved decision-making. The ERP solution supports seamless integration across different functions to enhance operational transparency and efficiency."
Tools Used: Manual Testing
Key Responsibilities:
· Understanding the business requirements and system functionality
· Developing and executing manual and automated test cases for various ERP modules
· Using Selenium for automated regression testing and ensuring cross-browser compatibility
· Validating data consistency across multiple modules such as Inventory, Sales, and Stock
· Performing functional, performance, and security testing to ensure system reliability
· Collaborating with cross-functional teams to resolve defects and optimize system performance
· Documenting test results, defect logs, and preparing comprehensive reports for stakeholders

- **API Testing:**
  - **Web services:** Rest API, SOAP, WSDL
  - **Data Formatting:** JSON– (REST API), XML
  - HTTP Verbs / HTTPS Methods
  - **HTTP status code:** 401, 201, 404 ,200
  - Request chaining,
  - API Authentication
  - **API Documentation:** Swagger,
  - Developing & executing API Test cases
  - **Testing Tool:** Postman, Newman, FireFlink
- **SQL: RDBMS:**
  - **Relational Model**
  - **Operators:** Special, Sub Query, Logical
  - **Functions:** Aggregate, Single
  - **Sub Query:** Nested, Co–related
  - **Joins:** Self, inner, Natural
  - **Normalization**

Soft Skill

- Leadership
- Collaboration
- Communication
- Optimism
- Analytical and logical thinking

Education Background

- Completed MCA from Bhilai Institute of Technology in 2012 with 88.71%.
- B.C.A from Pt. R. S. S. University with 82.6% in 2009.
- XII from Jawahar Navodaya Vidyalaya (CBSE Board) with 73.3% in 2006.
- X from Jawahar Navodaya Vidyalaya, Dongargarh (CBSE Board) with 80% in 2004.

Personal Details

- **DOB:** 20 sep 1988
- **Hobbies:** Painting,Crafting,Cooking
- **Permanent Address:**
  Palash housing Society,Wakad,Pune

Project 2

Project Name: – Timesheet Management Tool
Domain: Time sheet Tool
Duration: Four weeks
Description: "It is web–based software for time tracking and management. It helps improve business process, analyze team performance and reduce costs. It is a unique application that enables the organization manages performance and generates precise reports regarding employee shifts and performance with the help of its enhanced tools."
Tools used: JIRA, Manual Testing, Selenium (for Automation)
Process used: Agile: Scrum
Key Responsibilities:

- Understood the requirements and functionality of application
- Involve in writing and reviewing test cases
- Executed functional, Integration and System Test Cases
- Identified defect, prepared Bug report, logged defect in JIRA

Project: 3

Project Name: –Online Shopping Portal
Domain: E–Commerce Portal
Duration: Two weeks
Description: "This is a platform for shopping lovers where the shopping process is easier because people can shop online, which helps people to save time by searching for products they like in less time. This application also provides a huge platform to retailers where they can showcase their products to a large number of customers. This application provides shoppers with more options in products and easy payment modes, which indeed helps shoppers with an easy shopping experience."
Tools Used: Fireflink (Scriptless API Automation)
HTTP Methods used: GET, POST, PUT, PATCH, DELETE
Key Responsibilities:

- Understanding the Requirements and API Doc.
- Involved in developing and executing API test case
- Validated different HTTP status code
- Ensured code functionality, performance and security
- Involved in error handling
- Prepared daily / weekly report

All the information shared in the resume is correct, and I take full responsibility for its correctness
